**Circuit** is the result of two years of intensive study of people and work and the impact of technology on productivity. As part of an agile design process, over 1000 users were part of the beta testing program – here is a collection of the customer feedback...

“Using **Circuit** is fascinating. Its intuitive handling makes it quite easy to change between text, voice, or video communication with additional use of desktop sharing.”

“Having everything  
in one place—such  
as voice, video, and  
social collaboration  
-helps us convert  
impromptu into  
creative value.”

“The simplicity of getting onboard with **Circuit** really made it easy for our employees to adopt the solution to fit the needs of work, today. Our team was excited to try it and we didn’t need any special equipment to get it running.”

**Sky Communications**

Bill Bouie, President & CEO

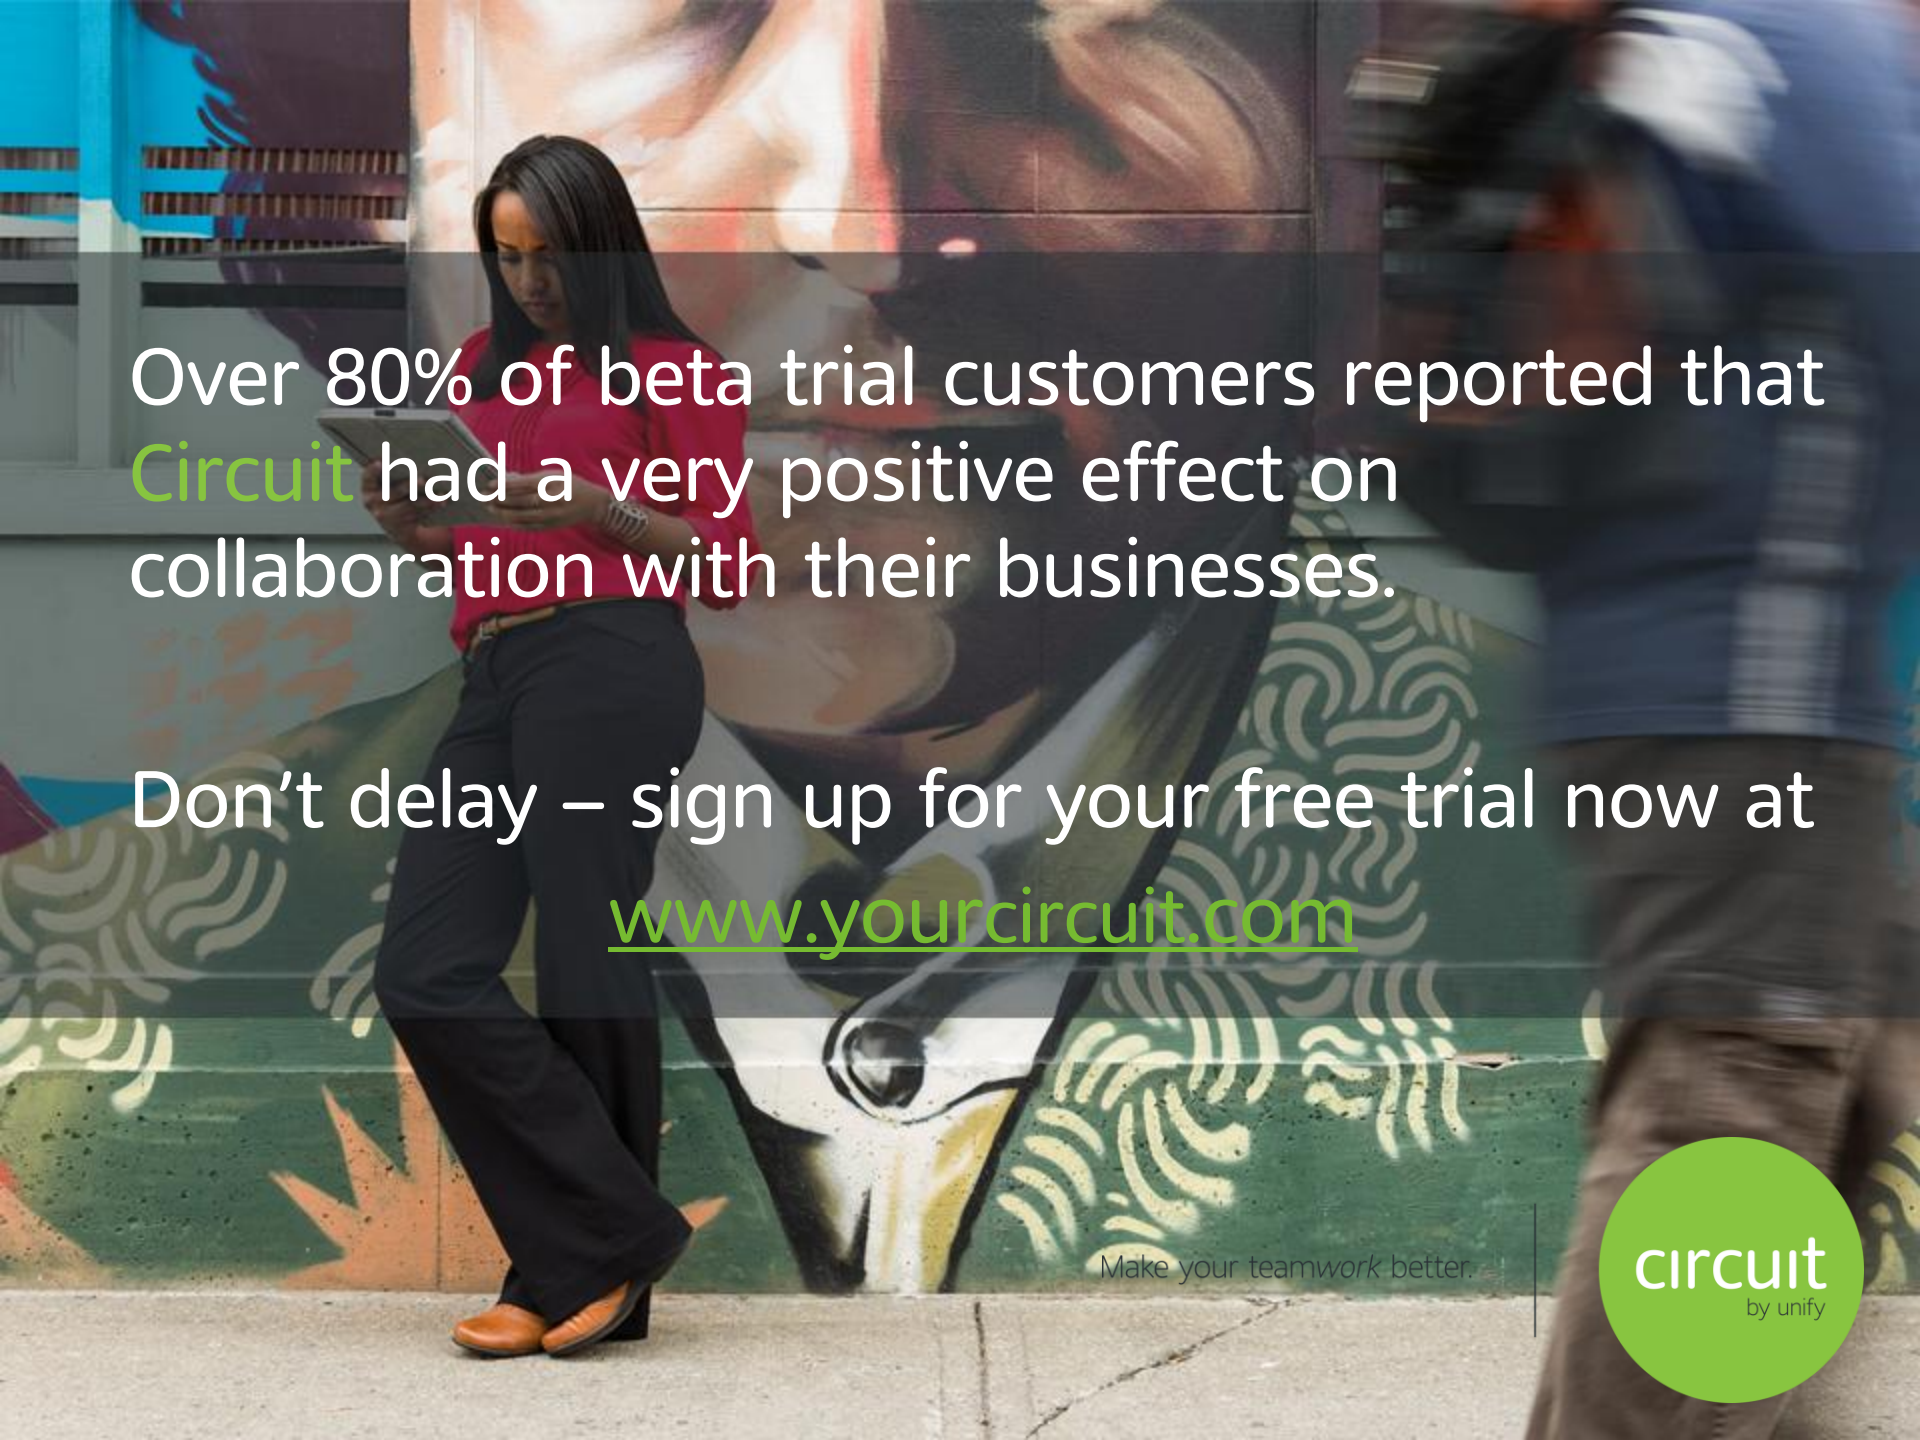

“Unify’s latest innovation, **Circuit**, doesn’t disappoint. We’re excited to be using **Circuit** and we’re already seeing an improvement in the way our teams communicate and collaborate.”

A woman with long dark hair, wearing a red long-sleeved top and black trousers, stands on a sidewalk looking down at a tablet computer. She is positioned in front of a large, colorful mural that features abstract shapes and a prominent white bull's head. To her right, a blurred figure of a person in a blue shirt and brown pants is walking past. The background also shows a building with blue and white architectural details.

Over 80% of beta trial customers reported that **Circuit** had a very positive effect on collaboration with their businesses.
